Agenda

- The Concept
- Our Role
- Our Strategy
- Brand Definition and Direction
- Execution Schedule & Timeline —present the 3 phases. After each phase show the spreadsheet on cost. After the 3 phased presentation
- Your Role
- Our Team
- Defining a successful Food4Wealth Project +POST EVENT EVALUATION
- What Next—press kit, approval and commencement date

Details

The Ministry should encourage Nigerians to plant a tree for a small fee for every tree they plant.

The specie of the tree determines the amount given.

Evergreen Tree

Schedule

Period	Cash Sectors	Implementation	Gains
6 Monthly	Petroleum; Since Agric. Built it.	People	Yields (Produce) depends on Plan
Annuals	Petroleum; Since Agric. Built it.	People	Yields (Produce) depends on Plan
Perennials	Petroleum; Since Agric. Built it.	People	Yields (Produce) depends on Plan
Others	Petroleum; Since Agric. Built it.	People	Yields (Produce) depends on Plan

Palm Tree as an Example

Palm Tree Plantation in Tunisia

Common Date Palm

Coconut Palms

Extensions

This procedure can be given to the other countries round the globe to plant trees especially the Sahara Desert; if the people in those countries in the Sahara Desert know that they will gain cash for every tree they plant the Sahara Desert will be no more because they will want money in bulk like Black gold gives, yet Red gold can be got by tree planting, Government will reap out of these trees when they mature to produce fruits. People who plant trees in their houses gain - eliminating poverty and government gains by buying bits from all and selling bulk to the world. Climate is described in the bible: See: Jer 51:16. This should be the trend in the constitution since people revere Religion.
